

**Has your organization
optimized your long-term
care respiratory disease
vaccination program?**

**Have you thought
through all the
questions about
planning?**

**Are you prepared
to have the right
conversations
with residents?**

*Scan the QR codes to learn more about helping to protect LTC residents with
respiratory vaccinations and getting your organization ready to vaccinate.*

Pfizer is proud to offer a portfolio of vaccines to help protect eligible* long-term care residents against certain respiratory diseases

Scan the QR codes below to learn more about vaccine options

**Respiratory syncytial
virus (RSV)**

**Pneumococcal
disease**

COVID-19

*Not all long-term care residents are recommended for vaccination against RSV and pneumococcal disease.
See CDC website for full list of risk factors.
